

Frequently Asked Questions ●

How long does residential care last?

Every client's journey is different, but typically clients have short term stays, from 30 days to 45 days.

How do I know if residential treatment is right for me?

Great question! Our Admissions team is ready to assist you in finding the ideal treatment approach for yourself or your loved one.

About Residential Care

For individuals battling mental health challenges, residential behavioral health care offers a lifeline. With tailored therapies, support networks, and a nurturing environment, it empowers each person to reclaim control, rebuild resilience, and thrive. Find hope, support, and lasting recovery in our compassionate residential programs.

Treatment Details

We provide treatment for a variety of conditions, a few examples but not limited to the following:

- ✓ Anxiety
- ✓ Depression
- ✓ Schizophrenia
- ✓ Bipolar I and II
- ✓ Borderline Personality
- ✓ Trauma
- ✓ Psychosis
- ✓ OCD
- ✓ Co-Occurring Disorders

Psychiatric Care:

Our programs provide round-the-clock supervision and access to a range of therapeutic interventions, including individual therapy, group therapy, medication management, and psychoeducation. The primary goal of residential care is to address the underlying issues contributing to the individual's behavioral health challenges, develop coping skills, and promote long-term recovery and wellness.

What You Will Learn

Diverse Group Therapy Topics

Our group therapy discussions are thoughtfully designed to equip clients with the skills, insight, and support needed for lasting recovery and emotional well-being. Topics may include, but are not limited to:

- Relationship conflicts
- Self-esteem group
- Cognitive Behavioral Therapy (CBT)
- Dialectical Behavior Therapy (DBT)
- Pre Vocational group (getting back into life)
- Nutritional group
- Gratitude group
- Evidence based solutions

A Curriculum That Works

The program is based on a curriculum covering various areas related to managing symptoms to increase daily functioning.

We also make it a point to work with clients to design a plan that will most effectively address their unique issues.

How It Works

Start your treatment within two hours by reaching out to us today. We believe it's never too late to begin treatment – and never too soon to start.

1. Contact Us:

Give us a call or complete our online form to request a callback. Our team is here to answer your questions and help you take the first step toward recovery.

2. Get Your Treatment Plan:

The road to lifelong recovery starts in a safe and secure environment with trained professionals who will teach life skills and coping tools to begin a meaningful journey to recovery.

3. Start Your New Life:

Leave feeling inspired and motivated to continue your recovery journey while building meaningful connections and strengthening personal, family, and professional relationships.
